VACCO Industries Recognized by NASA for Outstanding Support of the Artemis I Mission

South El Monte, California - May 2nd, 2023 - VACCO Industries, located in South El Monte, CA, was awarded a certificate of recognition for their exceptional support of NASA's Artemis mission. The certificate was presented by James Free, NASA Associate Administrator for Exploration Systems Development, and members of the Artemis team.

The award ceremony was held at the South El Monte Community Center, and was attended by local dignitaries including Gloria Olmos, South El Monte City Mayor; Rene Salas, South El Monte City Manager, and Richard Angel, South El Monte City Councilman. The City of South El Monte also presented NASA and VACCO certificates of recognition for the Artemis I program.

VACCO Industries has been a crucial partner in NASA's Artemis program, providing critical components for the Orion spacecraft and the Space Launch System (SLS). VACCO's innovative and high-quality products have contributed to the success of NASA's missions, and their shared dedication to excellence has been a cornerstone of the Artemis program.

VACCO Industries' President, Matt Stafford, expressed his gratitude for the recognition. "We are honored to receive this certificate of recognition from NASA and the Artemis team. VACCO Industries is proud to be a part of the Artemis program, and we look forward to continuing our partnership with NASA, Boeing, Lockheed Martin and our other partners in the years to come."
